# Wireless Water Alarm

**Ideal for detecting leaks from water heaters, washing machines, plumbing and HVAC/R systems**

**Features:**

- 120-foot range enables placement of sensor-transmitter in basement and receiver in upstairs bedroom
- Sounds loud alarm at receiver and "chirp" at the sensor-transmitter when water is detected
- Receiver can sound and display alarms from up to four sensor-transmitters deployed in different zones. Units can be assigned to any of six channels to avoid interference.
- Standard package includes one receiver with AC adaptor and one sensor-transmitter with "9V" battery. Optional package of one additional sensor-transmitter and battery (WA700SEN) is available.
- Sensor with suction cup is at end of 23-in. long cord, extending placement options to baseboards and A/C pans. Transmitter unit includes LED, and battery test button on side.
